Go dedicated with Sonassi Hosting

Please note. Due to recent floods in Thailand, hard disk drive pricing has begun to vary dramatically. As a result, prices may be higher than indicated below.

Server 1 (entry level)

The specification

1x Intel Quad Core 2.4GHz Xeon L5420

up to 2x CPUs

2x 4GB (8GB) DDR2 RAM

up to 24GB RAM

2x 1TB Samsung Spinpoint F3 32MB Cache (RAID1 SATA)

Full remote KVM-I (with ability to remotely mount media)

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny).

Unless you are an experienced user, we would advise using an "off the shelf" server control panel.

Recommended For

Magento stores with up to 4,000 unique combined daily visits*

3 day lead time.

Cost: £220.00 pcm

(£250.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Server 2

The specification

1x Intel Quad Core 2.4GHz Xeon E5620	up to 2x CPUs
3x 4GB (12GB) DDR3 RAM	up to 48GB RAM
2x 1TB Samsung Spinpoint F3 32MB Cache (RAID1 SATA)	
Full remote KVM-I (with ability to remotely mount media)	

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny). Unless you are an experienced user, we would advise using an “off the shelf” server control panel.

Recommended For

Magento stores with up to 8,000 unique combined daily visits*

7-10 day lead time.

Cost: £250.00 pcm

(£250.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Server 3

The specification

1x Intel Quad Core 3.3GHz Xeon E3-1240

16GB DDR3 RAM

up to 32GB RAM

2x 1TB Samsung Spinpoint F3 32MB Cache (RAID1 SATA)

Full remote KVM-I (with ability to remotely mount media)

Redundant PSU Chassis

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny). Unless you are an experienced user, we would advise using an “off the shelf” server control panel.

Recommended For

Magento stores with up to 10,000 unique combined daily visits*

7-10 day lead time.

Cost: £280.00 pcm

(£250.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Server 4 Bundle *with dedicated Firewall*

The specification

1x Intel Quad Core 2.4GHz Xeon E5620	up to 2x CPUs
3x 4GB (12GB) DDR3 RAM	up to 48GB RAM
2x 300GB 10K RPM Western Digital Velociraptor WD3000HLFS (RAID1 SATA)	
Full remote KVM-I (with ability to remotely mount media)	
1x Semi-Managed** Dedicated firewall (Zyxel USG 100)	

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny). Unless you are an experienced user, we would advise using an "off the shelf" server control panel.

Recommended For

Magento stores with up to 8,000 unique combined daily visits*

7-10 day lead time.

Cost: £332.00 pcm

(£350.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Server 5 Bundle

with dedicated Firewall

The specification

2x Intel Quad Core 2.4GHz Xeon E5620	up to 2x CPUs
6x 4GB (24GB) DDR3 RAM	up to 48GB RAM
4x 300GB 10K RPM Western Digital Velociraptor WD3000HLFS (RAID1 SATA)	
Full remote KVM-I (with ability to remotely mount media)	
1x Semi-Managed** Dedicated firewall (Zyxel USG 200)	

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny). Unless you are an experienced user, we would advise using an "off the shelf" server control panel.

Recommended For

Magento stores with up to 16,000 unique combined daily visits*

7-10 day lead time.

Cost: £529.00 pcm

(£350.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Server 6 Bundle

with dedicated Firewall

The specification

2x Intel Quad Core 2.4GHz Xeon X5680
6x 8GB (48GB) DDR3 RAM
4x 300GB 15K RPM Seagate Cheetah 15.7 (RAID10 SAS)
Redundant PSU Chassis
Full remote KVM-I (with ability to remotely mount media)

1x Semi-Managed** Dedicated firewall (Zyxel USG 200)

600GB Bandwidth provided per month on a 100MBit connection.

Your server will be provided barebones as standard with only an operating system installed (Debian Lenny). Unless you are an experienced user, we would advise using an "off the shelf" server control panel.

Recommended For

Magento stores with up to 32,000 unique combined daily visits*

7-10 day lead time.

Cost: £889.00 pcm

(£350.00 setup fee when paying monthly, free if paid annually)

Minimum contract 12 months

Build your own

Base Price	Annually	Monthly
Standard Chassis (no HDD, CPU, RAM) (2 HDD)	£770.00	£70.00
Standard Chassis (no HDD, CPU, RAM) (4 HDD)	£825.00	£75.00
Redundant PSU Chassis (required for X5660 and X5680)	£1045.00	£95.00
Interface	Annually	Monthly
SATA	£0.00	£0.00
SAS	£40.00	£4.00
CPU	Annually	Monthly
1x CPU (Intel Quad Core 2.4GHz Xeon E5620)	£1100.00	£100.00
1x CPU (Intel Six Core 2.8GHz Xeon X5660)	£2000.00	£180.00
1x CPU (Intel Six Core 3.3GHz Xeon X5680)	£2400.00	£220.00
RAM	Annually	Monthly
1x 4GB Memory (1x4GB)	£185.00	£16.00
1x 8GB Memory (1x8GB)	£285.00	£25.00
HDD	Annually	Monthly
1x 1TB 7.2K RPM Samsung Spinpoint F3 (SATA)	£160.00	£15.00
1x 300GB 10K RPM WD Velociraptor (SATA)	£250.00	£22.00
1x 600GB 10K RPM WD Velociraptor (SATA)	£350.00	£32.00
1x 300GB 15K RPM Seagate Cheetah (SAS)	£330.00	£30.00
1x 600GB 15K RPM Seagate Cheetah (SAS)	£500.00	£45.00
Firewall	Annually	Monthly
1x Semi-Managed** Dedicated firewall (Zyxel USG 100)	£800.00	£70.00
1x Semi-Managed** Dedicated firewall (Zyxel USG 200)	£900.00	£80.00
Bandwidth	Annually	Monthly
300GB Additional bandwidth	£720.00	£65.00
Bandwidth overage fee	£0.25p per GB + £40.00 fee	

Standard Support

Your server will be powered by our higher level SLA, providing a **4 hour response** time to any hardware failure. If a repair takes longer than 4 hours, a refund is made according to our [service level agreement](#).

Extra Support

Extra support can be provided in addition to the quoted price(s), which will include:

- Pro-active monitoring with 4 hr [service level agreement](#).
- Monthly review of server performance
- Install upgrade security patches as necessary***
- Review and tune application settings for performance

Cost: £80.00 pcm

* Approximate figure only, based on Magento demo store with sample data.

** Semi-Managed support includes basic configuration to open/close ports, session limit and routing. Excludes advanced configuration, such as VPN, LDAP/RADIUS, IDP, Anti Virus, Anti-Spam.

*** This does **not** include installing custom applications, or server customisation on demand. It is for when we deem it necessary to upgrade software.
